KU Core: Important Notes

• Some courses may count for multiple learner outcomes
  – HOWEVER, you can only count a Core course once
  – You pick where you want the course to count
  – E.g., LING 106 meets Goal 1 (Outcome 1) and Goal 4 (Outcome 2)
    • You can only count it in one place
    • YOU choose EITHER Goal 1 or Goal 4
    • Your DPR will make an initial placement for you based on where it “thinks” you need to use it.
KU Core: Important Notes

• Major and Minor requirements can meet KU Core requirements
  – E.g., SPLH 261 and SPLH 566 meet Goal 3 Social and Behavioral Sciences
  – SPLH 497, SPLH 498 and SPLH 660 meet Goal 6
  – You do NOT have to choose here
  – The course can count for KU Core and for your Major/Minor requirements
KU Core Important Notes

• New courses are being added to KU Core
• Courses that you have taken that don’t currently count, COULD count in the future
• re-check http://kucore.ku.edu/courses regularly (e.g., end of this semester, middle of next semester) to see if any of your completed courses fulfill Core requirements

- Course has more of a child focus rather than overview of disorders across the lifespan and may not allow students to accrue required observation hours. Thus, a 1-credit independent study with a KU SPLH 671 Instructor is required upon return to focus on the areas that may not be covered, complete observation hours, and learn about the teams in the KU clinic (which is important for those who will do clinical practicum at KU). If observation hours are accrued, the STUDENT MUST document all the observation hours (i.e., hours and clinical activity observed) on two forms and have BOTH forms signed by an ASHA certified clinician (i.e., supervisor's printed name, supervisor's signature, and supervisor's ASHA number).
